

## THE GUARDSMAN

- Integral flap in the frame allows for a power cable to be passed through and safely located when the cover is closed.
- Frame lifting points allow for total flexibility when installing the unit.
- Slide-Out safety grid (SMWL 0.25 tonnes) shields opening
- Quick-assembly post and chain safety barrier
- Chain tested to withstand impact loading of 125 kg
- Heavy duty, in-board nylon roller-guides for trailing edge with locking pins for extra security.
- Staple plate padlocks with cam-action hasp plate in a protective housing.
- Non-slip, reinforced cover designed to FACTA 5T,
