## **Environmental Policy**

Durey Castings Limited has long been committed to providing a quality service and part of our directive is to minimise our potential impact on the environment. Under our Health and Safety Policy, we operate in compliance with current legislation to ensure a safe and healthy business for our employees and customers alike, and at the same time strive to practice pollution prevention and curtail our environmental impact.

Specifically our directives are:

- ✓ To integrate the considerations of environmental impact into our day to day running of the business,
- ✓ To acknowledge the importance of incorporating environmental considerations in all future management decisions,
- ✓ To advocate environmental awareness among all staff members and encourage them to work in an environmentally responsible manner,
- ✓ To inform and educate all staff about environmental issues that may affect them in the workplace,
- ✓ To reduce waste by re-using and recycling materials and resources where possible,
- ✓ To encourage efficient use of materials and resources,
- ✓ To avoid unnecessary use of materials hazardous to human health and the environment and comply to strict guidelines relating to storage and disposal of such materials,
- ✓ To strive to continually improve our environmental performance by periodically reviewing our policy.

This policy will be updated as necessary to reflect best practice in the management of environmental issues.
